

# MORNING APPEAL.

THURSDAY, SEPTEMBER 5

## DAMNING THE TRUCKEE.

Although the Reno people were loud in their protests against the proposed building of storage reservoirs on the Carson, the people of this section are not so narrow minded as to throw a straw in the way of the building similar reservoirs on the Truckee river.

We are all anxious to see a fair trial made of the water storage system made in this State and it matters very little what part of the State receives the first benefit of the system. Success is one portion of the State means that the system will be generally adopted all over Nevada.

The present condition of the State is due more than anything else, to the disposition of one locality to fight improvements in another. Reno has always been conspicuous in this sort of work.

When it was proposed to grant a Legislative franchise to a company to tunnel Lake Tahoe and have the output of the water in Carson Valley, the Reno people fought it tooth and nail because they thought it would benefit some one outside of Reno.

This same policy was adopted when it was proposed to build water storage reservoirs on the Carson River.

We believe that the time has come when Reno can be shamed into decency and taught that a state of chronic boggishness is not the best manners.

The APPEAL is in favor of giving Washoe all the storage reservoirs it wants and also allow the State to pay for it. A man who opposes the experiment of the water storage in Nevada, because it helps any particular locality, is a fool.

While the question of taking money from the school funds is being agitated however, it might be a good idea to bring a test suit and have the Supreme Court decide on the matter before the work is begun. Better have the case decided now than in the midst of the work, when an adverse decision might be a hardship to contractors and laborers.

GOVERNOR.—It is generally understood in Republican circles that Gov. Stevenson will not be a candidate for re-nomination. It is as well understood, too, that T. B. Riekey is at present a full fledged candidate, and has already commenced shaking with the boys.—Journal.

In the event of Stevenson's nomination he will probably select A. C. Stevenson to handle the fight in White Pine and also send George Stewart, (Snow Flake) through Esmeralda with instructions to "spend what money is necessary and send bill to me."

In speaking of the water storage question the Gazette says its suggestions are meeting with, as yet, a lukewarm support from members of the Commission; but it proposes to keep hammering away on the question until they at last investigate the matter.

The Gazette's "hammering" was all against the scheme until it saw a chance to store water in the Truckee, on the ground all the while that the "sacred irreducible school fund" was in danger.

A Florida man in a burst of foolishness, wrote to his sweetheart that he would kiss her a trillion times when he met her. No matter how much time he put in on his work it would, at the rate of 15,000 kisses a minute—a good Reno suit—take him 12,784 years. It is quite clear that no matter how willing he might be he would be unable to deliver the goods. The girl, however, might throw off a few billion and still be happy.

Dr. Powell, the man who about a year and a half ago shot down poor Ralph Smith in cold blood, is again on trial. In the first trial it was conceded that Smith was a weak man about one half the size of Powell, but at the present trial the defence is making out Powell as a sort of hospital patient and Smith the murdered man is a regular John Sullivan.

NOTICE.—The public is hereby notified that at a meeting of the Carson Water Company held on Aug. 31st, Mr. Henry Daugherty was elected Superintendent and collector for the Company and is authorized to collect all moneys due the Company and receipt for the same.

G. W. RICHARD,  
Secretary.
